INDIA FOR MICE 2026

Where India's MICE Meets The World.

India for MICE 2026 successfully established itself as one of India's foremost industry platforms dedicated to the advancement of the MICE sector. The event brought together influential leaders from government, tourism, hospitality, convention centres, airlines, destination management companies, event organisers and service providers under one roof, creating meaningful opportunities for collaboration and business growth.

Through insightful panel discussions, thought leadership sessions, networking engagements and a focused exhibition, the event generated valuable dialogue around convention infrastructure, policy support, destination development and global competitiveness. By connecting decision-makers with industry stakeholders and fostering strategic partnerships, India for MICE 2026 strengthened the industry's collective vision and reaffirmed Hyderabad's position as a key hub for international business events. The success of the event further reinforced India's growing prominence in the global MICE landscape and laid a strong foundation for future editions.

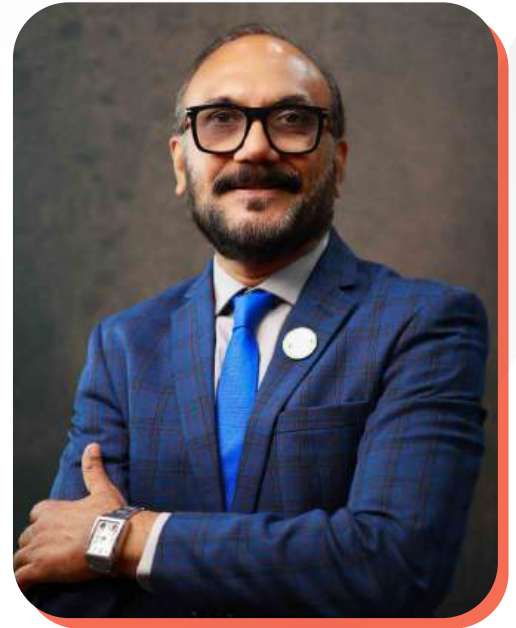

THE VISION

Behind INDIA FOR MICE 2026

At a time when India's Meetings, Incentives, Conferences and Exhibitions (MICE) industry stands at the threshold of unprecedented growth, meaningful dialogue and industry collaboration have become essential to unlocking its true potential and strengthening India's presence in the global MICE ecosystem.

Built on the belief that successful events are driven by strong partnerships and collaborative ecosystems, INDIA FOR MICE was envisioned not merely as a conference or exhibition, but as a strategic industry platform where policymakers, convention centres, tourism boards, corporates, event organisers, hospitality leaders, service providers and industry associations could come together to exchange ideas, forge partnerships and explore new opportunities.

Hosted as part of WEEW – World Events Economy Week 2026, the inaugural edition successfully brought this vision to life, creating a focused environment for industry dialogue, business networking and knowledge exchange. The event featured discussions on India's global MICE opportunity, convention infrastructure, emerging destinations, policy and connectivity, international event bidding strategies and building global standards across the event services ecosystem.

Through this initiative, SRIKANTH T. G. have taken an important step towards creating a collaborative roadmap for India's growing MICE sector. INDIA FOR MICE 2026 has not only established itself as a platform for conversation and collaboration but also as a catalyst for positioning India more prominently on the global MICE landscape.

As India continues its journey toward becoming a leading destination for international business events, initiatives such as INDIA FOR MICE will play a crucial role in fostering partnerships, encouraging innovation and driving the future growth of the country's MICE ecosystem.
